## WORK EXPERIENCE

### Full-Stack Developer

*theChapter* 🔗

10/2025 – Present

Remotely

I use NestJS to build **secure auth systems** and **integrate payment gateways**, and I leverage Next.js to ensure the frontend is perfectly compatible with all backend services.

### Front-End Developer

*شركة الريادة الاجتماعية (Ryadh Group)* 🔗

11/2024 – 05/2025

Remotely

Contributed to the development of multiple web projects focused on **education** and **social impact**.

## EDUCATION

### Bachelor of Information Technology

*University of Science and Technology*

09/2022 – 06/2026

Mukalla, Yemen

## PROJECTS

### Third Intelligence

 🔗

Developed a user-friendly interface using **Next.js v15**, **zod**, **Motion**, **TailwindCSS**, and **Shadcn/Radix-ui** to create efficient systems and improve user experience.

### Motqen Association

 🔗

Built a responsive website with accessibility features using **Next.js v15**, **zod**, **Next-Intl**, **Motion**, **TailwindCSS**, and **Shadcn/Radix-ui** to enhance learner engagement.

### Waqf Al-Khibra

 🔗

Utilized **Next.js v15**, **zod**, **Motion**, **TailwindCSS**, and **Shadcn/Radix-ui** to create this endowment platform focused on turning expertise into sustainable resources.

## SKILLS
